✅ FINAL SUBMISSION CHECKLIST

MKU – BIT 4102 | Computer Graphics | FINAL CAT

🅐 (a) ARCHITECTURAL FLOOR PLAN — 10 MARKS

REQUIRED DRAWING

✓ **ONE typical floor plan only**
✓ Clearly labeled:

"TYPICAL FLOOR PLAN – APPLIES TO ALL 14 FLOORS"

GEOMETRY (MUST BE PRESENT)

✓ External walls (proper thickness)
✓ Internal partition walls
✓ Doors (correct swing direction)
✓ Windows (consistent type)
✓ Staircases (min. 2 for high-rise logic)
✓ Elevator shafts (at least passenger lift)

SPACE PLANNING (THEY CHECK THIS)

✓ Offices laid out logically
✓ Corridors wide enough to function
✓ Washrooms:

- Male / Female or shared
- WC, basin clearly shown

❌ No random spaces
❌ No dead-end corridors

DRAFTING STANDARDS (THIS IS WHERE MARKS ARE LOST)

✓ Walls on **WALL layer**
✓ Doors on **DOOR layer**
✓ Windows on **WINDOW layer**
✓ Stairs & lifts on separate layers
✓ Correct line types:

- Walls → continuous
- Overhead / shafts → dashed

✓ Clear dimensions:

- Overall building
- Corridor widths
- Room sizes

✓ Labels:

- Room names
- Lift / stair labels

➊ (b) ELECTRICAL WIRING PLAN — 6 MARKS

REQUIRED DRAWING

✓ Separate **Electrical Layout Plan**
(Same floor, new drawing)

MUST SHOW

✓ Main power supply line (symbolic)
✓ Distribution board (DB)
✓ Lighting points
✓ Socket outlets
✓ Switch positions

✓ Wiring routes shown **diagrammatically**

SYMBOLS & LINES

✓ Standard electrical symbols
✓ Wiring drawn using **dashed lines**
✓ Different line type from architectural walls

✓ Electrical legend included:

- Light
- Socket
- Switch
- DB

❌ No calculations
❌ No 3D wiring

◉ (c) WATER SUPPLY & PLUMBING PLAN — 6 MARKS

REQUIRED DRAWING

✓ Separate **Plumbing Layout Plan**

MUST SHOW

✓ Main water inlet
✓ Vertical riser (clearly labeled)
✓ Horizontal distribution pipes
✓ Washroom connections (WC, basin)
✓ Water tank or pump room (symbolic)

SYMBOLS & ROUTING

✓ Standard plumbing symbols
✓ Cold water & waste lines clearly distinguished
✓ Pipes drawn cleanly (no spaghetti routing)

✓ Plumbing legend included:

- WC
- Basin
- Pipe types

❌ No pipe sizing
❌ No slopes
❌ No pressure calculations

➍ (d) WI-FI & NETWORK CABLING PLAN — 5 MARKS

REQUIRED DRAWING

✓ Separate **Network / Wi-Fi Layout Plan**

MUST SHOW

✓ Network backbone
✓ Floor distribution switch
✓ Wi-Fi access points (APs)
✓ Data cabling routes

✓ Proper labeling:

- “Network Switch”
- “Wi-Fi AP”

SYMBOLS & CLARITY

✓ Clear network symbols
✓ Data lines shown diagrammatically
✓ Coverage logically placed (not random)

✓ Network legend included

❌ No real networking calculations
❌ No server configs

🅔 (e) PRESENTATION & PROFESSIONALISM — 3 MARKS

(These are EASY marks. Don't lose them.)

LAYERS & NAMING

✓ Clean layer naming:

- WALL
- DOOR
- WINDOW
- ELEC_LIGHT
- PLUMB_PIPE
- DATA_CABLE

✓ No default junk layers

DRAWING ORGANIZATION

✓ Each plan is:

- Clear
- Uncluttered
- Properly scaled (1:100 or 1:50)

✓ Titles on every drawing
✓ Scale indicated
✓ North arrow included (architectural plan)

FILE SUBMISSION FORMAT (STRICT)

✓ Editable file:

`REGNO_COMPUTERGRAPHICS_CAT.dwg`

✓ PDF export of drawings
✓ Uploaded to GitHub
✓ GitHub link submitted in portal

❌ Wrong filename = penalty risk
❌ Missing PDF = penalty risk

🔒 FINAL SANITY CHECK (DO THIS BEFORE SUBMITTING)

Before submission, ask yourself:

✓ Can this be printed and understood without explanation?
✓ Are all symbols explained in legends?
✓ Is it obvious this is ONE typical floor?
✓ Does it look like AutoCAD output?
✓ Are there ZERO 3D views in the submission?

If yes → you're good.
