FURNITURE LIST

🛋 LIVING ROOM

Essential (Must Have)

- 3-seater sofa
- 1 or 2 single armchairs
- Coffee table
- TV unit / TV stand
- TV (wall-mounted or on unit)

Secondary (Optional but Good)

- Side tables
- Floor lamp or table lamp
- Rug
- Wall art
- Curtain / blinds

Don’t clutter it. Clear circulation space matters.

🛏 MASTER BEDROOM

Essential

- King or Queen size bed
- 2 bedside tables
- Wardrobe (built-in or free-standing)
- Dressing table / vanity
- Mirror

Optional

- Small lounge chair
- TV
- Chest of drawers

If it has an ensuite, make sure door swing makes sense.

🛏 STANDARD BEDROOM

Essential

- Double bed (or single if smaller room)
- Bedside table
- Wardrobe
- Study desk + chair

Optional

- Small bookshelf
- Mirror

Keep proportions realistic. Don’t oversize furniture.

🍳 KITCHEN

Essential

- Base cabinets
- Wall cabinets
- Countertop
- Sink
- Cooker / Hob
- Oven
- Refrigerator

Optional (Good practice)

- Microwave
- Kitchen island (if space allows)
- Dishwasher

Ensure:

- Work triangle (sink–cooktop–fridge)
- Clear walking space (at least 900 mm)

🚽 TOILET & BATHROOM

Essential

- WC (toilet)
- Wash basin
- Shower area or bathtub

Optional

- Vanity cabinet
- Mirror
- Towel rack
- Toilet paper holder

Minimum realistic sizes matter here.

🌇 BALCONY

Essential

- Railing
- Sliding door from living room/bedroom

Optional

- 2 outdoor chairs
- Small table
- Potted plants

Keep balcony simple. It’s not a lounge.

⚠ Important for Your Project

Since this is a Computer Graphics CAT:

You are graded on:

- Clarity
- Realism
- Clean layout

Not luxury interior styling.

Use furniture to:

- Demonstrate scale
- Show usability
- Make rooms understandable

💡 My Advice

Don’t download heavy, complex families.

Use:

- Lightweight generic families
- Clean 2D representation
- Simple 3D blocks

Heavy detailed families will slow your file.
